

6th Grade Math 25 Sessions (Each Session 60 - 90 minutes)

Session 1: Module 1: Integers and Module 2: Rational Number

Session 2: Module 3: Multiplying and Dividing Fractions

Session 3: Module 4: Multiplying and Dividing Decimals

Session 4: Module 5: Adding and subtracting Integers and Module 6: Multiplying and dividing Integers

Session 5: Module 7: Representing Ratios and Rates

Session 6: Module 8: Applying Ratios and Rates

Session 7: Module 9: Percent

Session 8: Review of 1 to 9 modules and Test Module 1 to 9

Session 9: Module 10: Generating Equivalent Numerical Expressions

Session 10: Module 11: Generating Equivalent Algebraic Expression

Session 11: Module 12: Equations and Relationships

Session 12: Review of 10 to 12 modules and Test Module 10 to 12

Session 13: Module 13: Inequalities and Relationships

Session 14: Module 14: Relationships in Two Variable

Session 15: Review of 13 to 14 modules - Test

Session 16: Module 15: Angles, Triangles and Equations

Session 17: Module 16: Area and Volume Equations

Session 18: Review of Module 15 and 16 - Test

Session 19: Module 17: Displaying, Analyzing, and Summarizing Data

Session 20 and 21: Module 18: Becoming a Knowledgeable Consumer and Investor

Session 22: Review 17 and 18 modules

Session 23: Review 1 to 18 modules

Session 24 and 25: Review unit tests, sample STARR question papers and CBE question papers

Homework: Worksheet will be uploaded to poornaoundation.org – I will send the link through email or text message to parents
